Opal Frost Acrylic LED Panel

SLP (UK) Ltd new Opal Frost diffuser is the latest in our range of LED solutions. Designed specifically for LED fittings the Frosted Acrylic provides good LED 'spot' diffusion, reduced glare and an excellent light transmission of over 70%. Frosted opal is an extruded product in 2mm or 3mm thickness that can be supplied in standard sheet format or cut to your individual requirements. As with all SLP (UK) Ltd products Opal Frost is available from stock for rapid processing and delivery.

For more information please visit our website or feel free to call our in house team to answer any questions you may have.
